XTEND TO SHOWCASE PRODUCTS AT GITEX HYDERABAD

Kochi, January 11, 2005: Xtend Technologies Pvt. Ltd., a leading provider of Interactive Voice Response Systems (IVRS) and Fixed Cellular Terminals (FCT) in South India, today announced their participation in the Gitex Hyderabad. The exhibition will see the display of their two newly launched products – Xtend IVR Prototyping Suite and Xtend CDMA Fixed Cellular Terminals.

Xtend IVR Prototyping Suite is a rapid application development tool capable of prototyping sophisticated IVR systems quickly and easily. Targeted at IVR developers to understand client requirements better and at EDP personnel looking to understand the capabilities and functioning of interactive voice response systems, the Xtend IVR Prototyping Suite is attractively priced at Rs. 4500/- + taxes.

The **Xtend CDMA Fixed Cellular Terminals** allow business houses to benefit from the highly competitive tariff in the mobile segment by enabling the GSM / CDMA network to be used via the EPABX, thereby reducing the communication cost considerably.

Both these products will be showcased at stall no. F11 of Gitex Hyderabad, being held from January 12th to January 14th, 2005.

About Xtend Technologies (P) Ltd.

Xtend provides Interactive Voice Response Solutions and Mobile Commerce Solutions via its RAD toolkits “Xtend IVR” and “Xtend SMS”. These products have been used by prominent Satellite channels, Engineering colleges, Banks, Telecom and other private and public sector companies for dissemination of information to their customers. In the Telecom sector, Xtend manufactures Fixed Cell Terminals (FCT).

Xtend is also the recipient of the “Best Innovative Products” Award of IT Kerala 2000 held at Technopark, Trivandrum.
